**KALAMAZOO, MI--(PR NEWSWIRE) — March 4, 2008 – Manatron, Inc. (NASDAQ: MANA)**, the nation's leading provider of integrated, enterprise-level property tax solutions for state and local governments, announced that it has received a contract from Santa Fe County, New Mexico for its Manatron CAMA solution. The contract includes GIS integration utilizing Sidwell's Parcel Builder, related professional services for the County Assessor's office and four years of annual software maintenance and support.

"Santa Fe County was looking for a new state-of-the art assessment software solution to replace our old system which was running on old technology and ended its life-cycle years ago," said Assessor Domingo Martinez. "After an extensive search and review of the available CAMA products in the market, we found that Manatron CAMA offered what we were looking for. We're looking forward to utilizing this product and leveraging its capabilities to help our staff deliver tangible value to Santa Fe County residents."

"This is a great win for Manatron," said Bill McKinzie, Manatron's President and Chief Operating Officer. "Santa Fe County is one of the largest jurisdictions in New Mexico and provides Manatron with a nice platform to increase our market share in that state. We look forward to serving the Santa Fe County Assessor's Office for many years to come."

**About Manatron, Inc.:** Manatron is focused on providing software and services to enable state and local governments in North America to completely, fairly and efficiently assess real and personal property, and to bill and collect the related property taxes in their jurisdictions. Manatron's software manages the entire property life cycle, which includes deed recording, land records, GIS (Geographic Information System) integration, valuation, assessment administration, personal property, business licenses, cashing, tax billing and collection, delinquents and tax sales and e-government. Professional services consist of data conversions, installation, training, project management, hardware maintenance, forms processing and printing, consulting and appraisal services. Manatron is headquartered in Portage, Michigan and has offices around the United States. Manatron currently serves over 1,400 customers and manages approximately 30 million parcels. Information about Manatron, Inc. is available at the Company's site on the World Wide Web at [www.manatron.com](http://www.manatron.com).

**About Manatron CAMA:** Manatron CAMA is a comprehensive Government Revenue Management<sup>®</sup> (GRM<sup>®</sup>) property appraisal software product. It features a highly productive, integrated sketch package and an extremely accurate valuation engine for calculating property values. It is the most widely deployed and, nationally recognized CAMA software product

available today. For more information regarding Manatron CAMA, please visit: [www.manatron.com/solutions/cama.aspx](http://www.manatron.com/solutions/cama.aspx).

**About Santa Fe County, New Mexico:** Santa Fe County is New Mexico's second largest County with a population of approximately 150,000. The County is known as "the land that lies outside of the city of Santa Fe." Its northern border touches historic Chimayo and stretches south to the rolling plains of Edgewood. From four Indian Pueblos and ghost towns that housed some of the first European settlers to a living museum that showcases life as it was for the early Spanish colonist, Santa Fe County is diverse in culture. More information on Santa Fe County can be found at [www.santafecounty.org](http://www.santafecounty.org).

**Safe Harbor Statement:** The information provided in this news release may include forward-looking statements relating to future events, such as the development of new products, the commencement of production, or the future financial performance of the Company. Actual results may differ from such projections and are subject to certain risks including, without limitation, risks arising from: changes in the rate of growth of the local government market, increased competition in the industry, delays in developing and commercializing new products, adequacy of financing and other factors described in the Company's most recent annual report on Form 10-K filed with the Securities and Exchange Commission, which can be reviewed at [www.sec.gov](http://www.sec.gov).
